

Testimonials

...the most powerful learning experience I have had in many, many years ...a truly enlightening moment.

Director, Motorola

An excellent day, I learnt some interesting things about myself. The immediacy of the feedback from the horses on our actions (& thoughts) was overwhelming.

TD&S Manager, HSBC

Kiki's coaching has helped me become more clear about the goals I wanted to achieve. She helped me explore resources that I didn't realise I had within reach.

IT & Development Specialist

I found coaching to be a very useful experience. It helped me gain greater clarity on my thought processes, limiting factors and the steps required to recalibrate them. Sessions provided me with an effective outlet to express myself, make sense of my experiences and map out hopes for the future.

Writer Marketing Specialist

Career Development
from the ***Inside Out***

A powerful experiential approach
**This unique workshop
is an opportunity to
discover your career
potential**

LeadChange

**KIKI KIRBY
COACHING**

Discover for yourself how this unique process will ensure you identify your authentic career development needs.

This is not a process or model that is 'applied' to you. It is exclusively based on an experiential approach that helps you identify your inner career desires.

Working initially with **Kiki Kirby** you will identify your true career potential and solutions to any 'self-limiting beliefs'. Additionally you will discover your motivation and inspiration.

You will then work with **Graham Dawson** and a horse to develop the points identified in the initial session with **Kiki**. You will be amazed at the power of the horse to help you reveal your true needs.

Details of these workshops are below

Dates:

Monday 12th September 2016
Thursday 6th October 2016

Address:

Overdale Equestrian Centre
Nether Westcott, Nr Burford
OX7 6SD

Time:

Why horses?

Horses are adept at picking up and responding to human intentions and non-verbal communication. They provide instant, honest, non-judgemental feedback to behaviour in the moment, creating a powerful coaching experience which gets to the core issues quickly and effectively.
